### Food Storage

*Keep a Clean Camp!*

Help protect wildlife, including black bears, by properly storing your food at all times. Improperly stored or unattended food items will result in a violation notice. “Food items” include food, drinks, toiletries, cosmetics, pet food and bowls, and odoriferous attractants.

Store all food items in food storage lockers (shown on campground maps). Food storage lockers (see left) are shared with other visitors and cannot be locked. If full, store food items inside vehicle trunks. In vehicles without trunks, place items as low as possible in the passenger compartment and cover them from sight. Always close windows and lock doors. Visitors with convertibles or motorcycles should use food storage lockers.

- Never leave food items unsecured or unattended, day or night.
- Do not keep food or toiletries in tents.
- Garbage, including empty cans and food wrappers, must be stored or disposed of in trash or recycling containers.
- Hummingbird and bird feeders are not allowed in campgrounds—they attract raccoons, elk, deer, bears, and other animals.
- Coolers, dirty stoves, grills, non-disposable tableware and cookware must be washed and stored just like food (do not place hot grills in food storage lockers). Camp kitchens must be kept clean and individual items properly stored.
